

THE WORLD OVER

MA ENBARGO TO RUSSIA

OT. A—The government is considering lifting the trade embargo against Russia. Trade Minister Eler told the House of Commons Monday that Canada embargoed Russian products in 1933, the edict applying to most Soviet goods, including coal.

DOMINION RENEWS LOANS TO ALBERTA

OTTAWA—The Dominion government has renewed for one year loans to Alberta maturing at the end of May and the first half of June, totalling \$2,500,000, according to a return tabled in the House of Commons Monday. The order-in-council tabled shows four per cent treasury bills of the province have been accepted as security.

A "GOOD" BUCKING HORSE

"Snowball," Australia's famous bucking horse, lived up to his reputation recently when he "stacked" Herman Lindner, Canadian champion all-around cowboy during the Melbourne rodeo. It was learned Ishpishewsky rode, the Canadian champion, however, endeavored to ride the outsize in a flat Australian saddle, equipped with the usual bucking rolls, and was unsuccessful.

\$14,700 RANSOM MONEY WILL BE RETURNED TO LINDBERGH

TRENTON, N.J.—Attorney-General David T. Wilentz said that \$14,700 of Lindbergh ransom money had been turned over to Prosecutor Anthony M. Hauck, Jr., of Hurlerston County, for return to a representative of C. G. Charles Lindbergh in New York. The \$14,700 was found in possession of Bruno Richard Hauptmann, convicted of the baby's murder. The rest of the \$50,000 ransom, the prosecution contended, was used by Hauptmann in stock market and business transactions.

DEPOSED EMPEROR KEEPS RICHES

Haile Selassie's sudden departure from Ethiopia was, apparently, well planned. Included in the baggage of the conquered Lion of Judah, were six automobiles, ten tons of trunks, boxes, labels, a pet python and 100 steel-bound cases containing coin and jewelry. When checked by a British bank manager in Jerusalem the contents of the steel-bound cases were estimated at a little over \$500,000. In addition the imperial crown was safely stowed away in a British vault. The crown, of solid gold, weighing more than three pounds, is richly studded with rubies, diamonds and sapphires.

A GENTLE HINT

Acme Main Street is being gravelled this week. This will be a great improvement and should be much to the better of the conduct of the street.—The Acme Sentinel.

COUNCIL OF M. D. CARBON URGES GOVT TO CONTINUE THE WHEAT BOARD ACT

The regular meeting of the Council of the Municipal District of Carbon was held in the Municipal office on Tuesday, June 2nd. All councillors were present with George Webber, Reeve, in the chair.

Besides the regular routine business of accounts and correspondence, a letter from the Department of Agriculture was read to the effect that it was necessary to appoint a weed inspector. The matter was tabled.

The Council passed a resolution urging the Dominion Government to continue the Wheat Board Act during the crop year of 1936-37, and the secretary was instructed to forward a copy of this resolution to every municipal district in Alberta in the hope that united action would have more effect in bringing the matter forcibly to the Minister of Agriculture.

The following is the resolution: "Be it resolved that the handling of wheat being under Government control in some form in all exporting and importing countries at present, the Canadian Government should continue the Wheat Board Act during the 1936-37 crop year, so as to maintain a living price and not return to the open futures system, as we believe this will lead to the financial ruin of Western farmers."

LONG YEARS AGO

June 5, 1924

The Chaataqua ticket selling campaign started on Wednesday. The whole community is being convinced.

Joe Faller writes from Owen to say he is pleased with his new position.

Commencing on June 10th the Carbon-day Chaataqua will get under way.

A great amount of business was transacted at the last meeting of the Council of the Municipal District of Carbon, and it was one of the longest.

The Carbon football team played Orkney in Carbon on June 3. Carbon has a strong football team this year that is worthy of the patronage of the sporting public.

CANADIAN WHEAT SURPLUS

Surplus of Canadian wheat for export or carryover at May 15th was approximately 20,000,000 bushels compared with 243,000,000 bushels at a comparable date of 1935.

Money doesn't make people happy. But it lets them be miserable in comfort.

KING EDWARD VIII

The announcement was made last week that the coronation of King Edward VIII would take place on May 12, 1937.

THIRTY SIX HOUR RAIN IS WELCOMED BY FARMERS

An ideal spring has been further perfected by the beautiful rain over the week end and last Saturday for thirty-six hours. Commencing on Saturday evening the rain fell gently, gradually increasing in volume, and a steady shower kept up until Monday morning.

While crops were not suffering from lack of moisture the rain was welcome and will ensure growing grain sufficient moisture for another three weeks or so.

The frost of a week ago is reported to have done slight damage in some parts of the district, the lowlands in particular being affected by the cold nights. The damage by frost, however, is considered light.

LADY ROBERTS CHAPTER L.O.E.E. GIVE PARTY IN HONOR OF BRIDES ELECT

The Lady Roberts Chapter L.O.E.E. held a very enjoyable party at the home of Mrs. H. C. Wilson on Monday evening in honor of the Misses Kathleen Watkins and Ella Halstead, brides-elect.

Misses Winnie Poxon and Leona Gervais were given first prize for the treasure hunt, and Miss Mabel Kane was given the prize for the best piece of furniture for the bride's home.

Mrs. Wilson, on behalf of the Chapter, presented each of the honored guests with a silver cup.

The hostess served a very dainty lunch and the evening was brought to a close with the singing of "Auld Lang Syne."

TEACHERS' CONVENTION HELD AT CARBON MONDAY

Teachers representing schools of Orkney, Saree, Webb, Garrett, Beveridge Lake, Ardchapel, Swallowtail, Roseview, Mosher, Kern, Advent, Lennox, Hesketh and Carbon met in the Carbon school last Monday afternoon. Inspector Frame outlined the new method of teaching, which will be introduced in September, and showed the improvements on the old system.

A new slate of officers was elected for the coming year, as follows: President, Miss M. Currie, Kern; Secretary, Miss B. O'Connor, Mosher.

The decision to hold a field day for all schools early in the fall met with favor and the matter will be taken up as soon as the fall term commences.

C. G. I. T. RALLY HELD AT CARBON FRIDAY NIGHT

A C.G.I.T. Rally was held in the Carbon United Church on Friday evening and representatives were present from Carbon, Three Hills and Acme. About seventy-five girls and their mothers were present and Miss Condie Smith, Provincial Girls Work Secretary from Calgary, spoke on the merits of the C.G.I.T. summer camp and showed slides depicting some of the summer scenes.

The Senior group gave a drill, the Intermediates had a "Parade of Nations," and the Explorers held a singing around a camp fire, as part of the program.

Lunch was served later in the evening and a very successful gathering was brought to a close.

Strange as it may seem, if some of us really knew ourselves we'd hardly know ourselves.

TROCHU CLUB FALLS VICTIMS OF CARBON TENNIS PLAYERS

The Carbon Lawn Tennis Club visited Trochu on Wednesday June 3rd and played a match with a team representing Trochu Town. The result was a win for Carbon by seven sets to two.

The following are the results and scores:

Men's Singles
N. Nash, Carbon, defeated E. M. Borgal, Trochu, 6-5, 4-6, 7-5. J. Spence, Carbon, defeated R. Murray, Trochu, 6-0, 6-4.

Men's Doubles
N. Nash and J. Spence, Carbon, defeated G. Roberts and C. Ritz, Trochu, 6-5, 6-4. C. Poxon and C. Smith, Carbon, defeated L. Slipp and W. Keir, Trochu, 3-6, 6-3, 6-0.

Ladies' Singles
Miss M. Ramsay, Carbon, defeated Mrs. Borgal, Trochu, 6-4, 6-1.

Ladies' Doubles
Misses A. Ramsay and A. Lomay, Carbon, defeated Misses K. Slipp and K. Cairns, Trochu, 6-4, 6-4.

Mixed Doubles
E. M. Borgal, Carbon, defeated C. Smith and Miss B. McQuade, Carbon, 6-3, 6-1.

Junior Men's Singles
C. Ritz, Trochu, defeated F. Poxon, Carbon, 4-6, 6-3, 7-5.

Junior Ladies' Singles
Miss A. Lomay, Carbon, defeated Miss H. Masterson, Trochu, 6-2, 6-4.

I SAW THIS WEEK---

The local tennis stars enjoying a rest on Sunday. Joe Greenan, country boy, Elmer Hill, rolling a cigarette and surveying the situation. Bill Reid, agreeing with someone. John Spence, sitting on the edge of the bed and feeling much better. Jack Barber, carrying home Saturday night to escape the rain. A. F. McKibbin, paying the new tax and Neil Cunningham, paying the same. Mrs. E.J. Rouleau and Mrs. C. O'Connell, just dressed on Monday night. Several of the girls very much interested in clothes lines along the same night.

THIRD ALBERTA CROP REPORT ENCOURAGING

(Issued by Dept. of Agriculture)

Wheat heading in the late districts of the north was completed a week ago. Some decrease in wheat acreage in the west-central and northern districts has resulted from the late wet spring, with a corresponding increase in southern and central areas and south of the Peace River. In the Edmonton zone and north of the Peace about 25 per cent of coarse grain seed remains to be done. Work on summer fallow is well under way in the south and east-central parts and in the Grande Prairie district.

Exceedingly hot, dry weather has prevailed over the Province the week of May 25th. Fortunately the heavy rains of the previous week had provided sufficient surface moisture in southern sections to bring crops through the hot spell in reasonably good condition, but rain is now needed from Calgary south and in eastern districts north to Lloydminster for continued normal growth. This rain has since been received. Cooler weather of the present week has recorded some relief in these areas. The recent hot weather was most beneficial to the late sections of the centre and northern districts. Rapid growth making up to some extent for earlier delay in seeding. There is still abundance of reserve moisture in these districts. During the present week showers have occurred at scattered points, heaviest rainfall being reported from Calgary west and north to Red Deer.

Light frosts have been reported during the past few days at a number of places, but have been sufficiently severe to do much damage to crops.

Strangely as it may seem, if some of us really knew ourselves we'd hardly know ourselves.

REDLAND NEWS

In honor of Miss Olive Charlbois, July bride-elect, Mrs. W. Munroe entertained at a six o'clock dinner, and a hands-off and towel shower, at her home on Saturday. The guests included Mrs. Roy Hammond, Mrs. J. McGinnis, Dr. McMillen, Mrs. Colledge, Mrs. C. M. Gross, Mrs. Jack Sangster of Rosebud; A. Givin, Mrs. R.E. Kenney, Mrs. W.T. Robill, Mrs. I.J. Kenney, Mrs. M.E. Males, Mrs. Owen Kenney and Mrs. H.R. Wilson, of Redland.

Mrs. Owen Kenney read tea following which the hostess presented the home-guest with a lovely decorated umbrella laden with gifts.

Mrs. Owen Kenney read tea following which the hostess presented the home-guest with a lovely decorated umbrella laden with gifts.

In honor of Miss Olive Charlbois, July bride-elect, the school children gave a novelty party, shower at the Redlands school on Wednesday afternoon, June 3rd.

Gordon Riley, dressed as a grocer boy, presented the teacher with the gifts, all dressed up in finery. Games were enjoyed, after which lunch was served.

"HESKETH SPARKLETS"

Don't forget the dance in the Hesketh Community Hall on Friday night. The Hesketh hall team will play the Hesketh Cade side at the latter's grounds on Sunday.

Frank Clarke commenced hauling from Calgary last Thursday and will make the trip weekly.

An unfortunate error crept into this column last week when it was stated that Carbon won the ball game 27-20. It has since been learned that Hesketh won the game 27-20, the Carbon boys being on the short end of the score.

Watch for the posters announcing Hesketh's annual sports day.

MAY ERECT CRUDE OIL REFINERY IN VICINITY

P. L. Hyde, president of Hydro Petro Oil Ltd., announced recently that his company expected to commence construction shortly on the erection of a crude oil refinery in Southern Alberta. Representing an investment of approximately \$50,000, the plant will have a capacity of 200 barrels a day.

Mrs. Hyde said location of the plant has not yet been chosen. Decision will rest with the results of the survey underway in the districts of Vulcan, Okla., Three Hills and Beiseker. It is expected that this will be completed in a week or so.

About thirty men will be employed, said Mr. Hyde. The purpose of the plant will be to supply a substantial agricultural territory in the area as well as the outfit already developed by Mr. Hyde in Saskatchewan.

CARBON STAMPEDE JULY 1

Arrangements are being completed for Carbon's annual Stampede and sports day which will be held this year on Wednesday, July 1st. There will be a complete list of Stampede events, as follows: Chuck Watson races, Horse Riding with saddle, Buck-kick Horse Riding, Steer Roping, Wild Cow Milking, Call Roping, Riding Relay, Barrel Race, Stetland Pony Race, Free-For-All Race, etc.

The sports will begin in the morning with a monster parade. The Stampede events will follow immediately after lunch, and ball games will conclude the athletic events in the evening. A monster dance will be held in the hall to wind up the event, and taking everything into consideration, Carbon should have a wonderful sports day on July 1st.

Watch for posters announcing the stampede and a list of the prize money being offered.

Entries for stampede events can be made at any time with the Stampede Secretary, S. F. Torrance.

BIG SPORTS DAY PLANNED BY GRAND FORKS ATHLETIC ASSOCIATION ON JUNE 23

Posters are out announcing the big sports day to be held at the grounds of the Grand Forks Athletic Association on Tuesday, June 23rd.

There will be baseball games between teams from Carbon, Granger and Swallowtail. The event will commence at 2:30 p.m., and the final game at 6:00 p.m.

This year participants are reminded that if they play in the baseball games they are not eligible to take part in the softball games.

Men's softball games commence at 11:00 a.m., when Grand Forks and Hesketh play. At 11:20 Swallowtail plays Saree on the second diamond, while at 12:30 Carbon meets Mount Vernon. The final games will commence at 2:30 p.m., and the final game at 6:00 p.m.

Arrangements have been made to have a booth on the ground and patronage will be assured of every convenience.

A big dance will be held in the Farmer's Exchange Hall, Carbon, in the evening and a four-piece orchestra will furnish the music.

Plan your June 23rd holiday for the Grand Forks sports.

A Moral Renaissance

In a world riven with fear and mistrust, with greed, hatred and suspicion rampant between individuals, between economic, political and social groups and between nations, there must be much inward searching of souls, much communing of hearts in an effort to find the cause of all this strife in the hope that thereby a remedy may be found and once again nations may live in peace and people may pursue the paths of progress with hope and confidence in the future.

That there is much travail, seething and unrest at home and abroad no one can gainsay, and until some key has been found which will unlock the gate to peace and prosperity, there can be no assurance of widespread happiness and contentment.

What is this key, millions of people are asking themselves and asking one another as they view with dismay the ruffled waters of a troubled humanity?

Perhaps the answer is to be found in the statement made in the British House of Lords on March 19, 1936 by the Marquess of Salisbury, son of the famous prime minister of the same name in the late Victorian era. When he said:

"The cause of the world's state is not economic; the cause is moral... If I may use a phrase which is common in a great movement which is taking place in this country and elsewhere (The Oxford Group) what you want are God-guided personalities, which make God-guided nationalities, to make a new world. All the other ideas of economic adjustments are too small really to touch the centre of the evil."

If such a statement were made from the pulpit it would probably be regarded by many as more or less of a commonplace, something to be expected from such a source, but when it is made by a peer of the realm in such an institution as the House of Lords of Great Britain, it has more arresting and significant effect and serves to emphasize what might be considered a platitude if uttered by others elsewhere.

The minds of many great leaders are being directed in this channel as is evident from recent utterances of other great men whose words, whether their political or economic creeds are accepted, inspire serious thought and consideration.

A similar idea was expressed about the same time by President Roosevelt of the United States when he said:

"No greater thing could come today to our land than a revival of the spirit of religion... a revival that would sweep through the homes of the nation and stir the hearts of men and women of all faiths to a reassertion of their belief in God and their dedication to His will for themselves and for their world. I doubt if there is any problem—social, political or economic—that would not melt away before the fire of such a spiritual awakening."

Further testimony in support of this sentiment comes from Roger Babson, founder of the Babson Statistical organization, whose prophecies of future trends based on statistical data are regarded as authoritative over the entire continent. Mr. Babson recently said: "I expect a business revival, but only a spiritual awakening among the people can make it enduring."

These and other authorities and leaders in many countries of the world are unanimous in their opinion that before there can be a change in the national and international outlook it is essential that the viewpoint be changed and that, in effect, a moral renaissance is necessary for the national viewpoint can be more other than that of the individuals which constitute it.

It might perhaps be said: What is the use of Canadians adopting an unselfish or a lofty moral viewpoint so long as the peoples of other countries exemplify a diametrically opposed outlook? Such a question is a question of purpose and duty could only serve to delay the consummation of the peace, concord and prosperity which the great majority desire to see. Reform and improvement must first come within and spread outward like the ripples on the water from the cast stone.

Whether one agrees or not with the doctrines of the Oxford Group movement, one cannot but recognize that when they draw attention to the fact that there must first be a change in the individual before there can be a changed national viewpoint, they are hitting the bullseye.

Keeps Passenger Log Book
Capt. Williams H. (Bill) Wincapaw of Boston, veteran Massachusetts aviator, keeps a passenger log book which everyone must sign before going aloft with him. The book now contains more than 50,000 signatures. The most recent flight, a load was carried by Wincapaw was a group of 11 persons, each of whom was 62 years old.

It's not the hours you put in that count, it is what you put into the hours.

Not So Cheering
Mr. and Mrs. Newel were silent as the train bore them home-wards after their honeymoon. Mr. Newel was hard up. He had spent every penny on the honeymoon and his next pay-day was a fortnight off.

As they neared home the young wife gave a merry laugh. "I'm going to tell you a secret that will cheer you up, Billy," she said. "The fore we went away I hid ten pounds in the larder."

"Yes," said her husband. "I know, I found it."

Eighty per cent of the tornadoes in the United States occur between November and 6 p.m.

China has just established zone rates for air mail.

Not Given Much Credit

But Wives Of Early Western Settlers Did Their Part

First white woman to the plains of Western Canada was Marie Calhoun, who journeyed to the Red River in 1867 and later as far west as Edmonton, said E. A. Corbett, local historian, in an address at Saskatoon.

Talking on "Early Women of Western Canada," the speaker remarked early fur traders were not only efficient in giving credit to the women who accompanied them into new lands.

Mr. Corbett referred to the wife of David Thompson, one of the west's earliest explorers. Mrs. Thompson, he said, was a half-breed girl born in the U.S.

Patrick Small, one of the first white traders on the Churchill River. David Thompson married the girl when she was 14 years of age and from then on she was his constant companion.

The speaker regretted Alexander Mackenzie had left little record of the part his wife played in his northern explorations.

"It is unfortunate," he continued, "that we know little of the wives of the Selkirk Settlers, of such white women as the wife of Factor Rowland, who with her husband made old Fort Edmonton famous for its hospitality during the early years of the last century."

Asphalt In Petroleum

New Process May Make It Available For Paving Material

Oil wells which supply the gasoline to move vehicles were pointed out today as a new source of paving material over which to move them. All petroleum contains asphalt, but it has not been utilized for paving because of impurities. By a new vacuum process of extraction demonstrated at the International Petroleum Exposition, pure asphalt falls like rain out of a cloud of vaporized petroleum. The still in which this is done was invented by Dr. Sidney Brier, director of petroleum research at the University of Tulsa. The still is towers made of heavy steel, 40 to 60 feet high and five to 25 feet in diameter.

In the interior of the towers are almost perfect vacuums. Into them is run petroleum from which gasoline and kerosene have been extracted. The liquid is shot into the vacuum tower at 6,500 degrees Fahrenheit, and is sent to the top where it instantly expands into a cloud of vapor. Out of this vapor the asphalt falls completely pure in a coal black rain.

Collars Replace Riband

Holders of Certain Decorations Must Change When Ordered

Holders of certain orders who wear their "collars" when the King or the Queen bestows the honor will find James Palfrey. That was because the levee coincided with the birthday of Queen Mary and he was announcing it here the footnote: "N.B.—May 26 is a collar day."

Collar days there were 25 last year—says on which, if decorations are worn, the riband of the Garter, the Thistle, the Bath, St. Michael and St. George, the Royal Victorian Order, and certain other orders is replaced by the collar of the order.

It is laid down in court regulations that collars must not be worn after sunset, except by the King's special command, so that they are rarely seen at public dinners or receptions. The collar with the badge of the order suspended from it is worn under the shoulder straps or epaulettes of uniforms, fastened with white satin bows, 1½ inches wide, at either side.

New Northern Sea Route

Navigators Of Soviet Have Made Mariners' Dreams Come True

A new sea route has been opened by Soviet navigators that will save one year's preparatory work. The Russian coast vessels have succeeded in establishing a route to the Far East along the northern coasts of Europe and Asia. Such a way has been the dream of mariners for centuries, though 10 years ago Nansen declared the idea to be impossible.

An icebreaker fleet placed along the route has kept the channels open. More than 100 ships of the Soviet mercantile marine have this winter sailed along this roof of the world without a single mishap. Five radio stations keep vessels informed of weather and ice conditions.

The first lesson in the school of experience is simple. You just sign a note for a friend.

Get Practical Training

High School In Jacksonville, Florida, Has Splendid Plan

In Jacksonville, Florida, high school boys and girls are getting training for future jobs in the community at the same time they attend school. They go to school part of the day and the other part they spend in the department store, advertising office, broadcasting station, theatre, hotel, tearoom, telephone office, learning practical work right on the job. This is the inauguration of the "Jacksonville Plan" about two years ago, 86 per cent of the vocational pupils have secured jobs upon graduation, and the plan is spreading to other cities of the south and west.

The majority of the boys and girls leaving high school today cannot go to college, yet their training is directed toward that goal. When they apply for a job, the employer asks: "What can you do?" The answer is, "I don't know, but I can try anything." The Jacksonville graduate says: "I have had two years' experience in a bank," or in an auto-mechanic shop, or any other of the six distinct types of training positions in the community—Christian Science Monitor.

Admiral Of Yacht Squadron

King Edward Has Official Field By Edward VII.

The King has become Admiral of the Royal Yacht Squadron, perhaps the most exclusive club in the world. Edward VII. was the first holder of the office of admiral, inaugurated at his accession in 1901. The club itself was established in 1812.

A story circulated that the royal yacht racing cutter Britannia is to be sunk to spare her indignity of the ship-breakers yard. However, experts showed this report incorrect. The King has given instructions that the sails and rigging of the craft be sold, but the remainder of the equipment is to be stored and no instructions have been given regarding the hull. The Britannia was built in 1863 for Edward VII. when he was Prince of Wales. The famous cutter won 231 first prizes and 129 other awards in 625 races in the course of 43 years of racing.

Future Of Quintuplets

Dr. Allan Roy Daffoe Hopes They Will Become Normal Young Women

Dr. Allan Roy Daffoe's hopes the Dionne quintuplets will become just as normal young women as girls born singly rest largely now on the women to be entrusted with the education of the famous babies who are now two years old. Admitting he had few fears left about the babies' health, Dr. Daffoe said he and the other guardians will shape the babies' lives until they are 16.

Phones In Canada

Canadians Do More Phoning Than Any Other People

Canadians do more telephoning than any other people in the world. Statistics released at Montreal show every man, woman and child in Canada held an average of 2124 telephone conversations last year. The United States with 1924, Denmark and Sweden were next in order. In Canada there are 11 phones for every 100 persons.

Needed Larger Shoes

A pair of size 29 shoes, costing \$88 was made in Findlay, Ohio, for Robert Wadlow, the 18-year-old giant of Alton, Ill. The shoes, probably the largest ever made, were returned, however, because, Wadlow said, they "pinched" his feet.

Crossing the onion and the garlic plants has produced a new vegetable known as the "garlon," said to possess the best qualities of both.

ASK FOR

KEEPS TEETH SPARKLING

Need More Scholarships

More Opportunity Required For Bright Students Without Means

Dr. R. C. Wallace, newly-appointed principal of Queen's University, stated at Ottawa that Canada needed more scholarships for her students. Dr. Wallace, president of the University of Alberta, succeeds Dr. W. Hamilton Fyfe, who accepted the principalship of Aberdeen University.

It should be possible for a student, irrespective of means, if he has the mental ability, to go right through school and college, said Dr. Wallace.

Regarding positions for university graduates, Dr. Wallace said: "People to-day are realizing more and more the importance of trying to help the trained person and the businessman are recognizing this and doing all that lies in their power to prevent the trained person from going to waste."

"Sports have a real value in their correct place," he said. "We must remember that students do not go to the university for sports. That is not why universities were founded."

SELECTED RECIPES

HERMITS

- 1 cup butter
 - 1 cup sugar
 - 3 eggs
 - 1 cup raisins, stoned and chopped
 - 1 teaspoon each allspice, cinnamon and nutmeg
 - 2 cups flour
 - 2 teaspoons Baking Powder
- Cream together thoroughly butter and sugar, then with a wooden spoon work in raisins and spices, then the well beaten eggs, then flour and baking powder, which have been sifted together. Roll out and cut with very small cutter. Bake in moderate oven about 10 minutes.

Known As Electric Man

English Farmer Can Take 150 Volts Without Feeling It

Invalided out of the British army as a hopeless cripple after an attack of rheumatic fever, T. Lintott, a farmer of Tynham, England, has become known as "the electric man" for his ability to handle high voltage never bothers to disconnect the wires. He can take 150 volts without noticing it. After leaving the army he threw away his crutches, mounted a motorcycle and learned to ride unaided. Since then he has not needed the crutch.

World's Only Dwarf Elephant

Hardly Five Feet Tall But Weighs 1,760 Pounds

The smallest adult elephant in the world arrived at St. Nazaire, France, to make his debut in a French circus. He is nine years old, his name is Auguste, he is slightly under five feet tall, and he weighs the trifling total of 1,760 pounds. Auguste was born a normal elephant, but suddenly stopped growing, and is a dwarf to this day. He arrived in a crate labelled: "Fragile; don't turn upside down."

In time of trouble, the old Union Jack flies good to others as well as Britons.

Russia claims to have 1,300,000 soldiers guarding Soviet borders.

Was Noted Explorer

Harry Whitney, Of New York, Dies In Montreal Hospital

Harry Whitney, of New York, noted explorer and big game hunter, died in hospital at Montreal recently. He was born in 1872.

In 1909 and 1910 he was the centre of a controversy about discovery of the north pole. Mr. Whitney had gone north with Admiral Peary, and in 1909 both Admiral Peary and Dr. Frederick A. Cook returned from the Arctic and both claimed discovery of the north pole.

Doubt was cast on Dr. Cook's claims, and Mr. Whitney entered the controversy. He said he had gone hunting while with the Peary expedition and met Dr. Cook, who left instruments, clothing and other effects with him which Whitney cached.

He said Peary refused to take them aboard his vessel, the Roosevelt.

When the controversy broke it was intimated Mr. Whitney had destroyed Cook's records or had purposely left them behind. Mr. Whitney made only one statement, that Dr. Cook had told him of reaching the north pole and had sworn him to secrecy.

Mr. Whitney returned to the Arctic in three successive summers and continued to be a member of parties which went to the Arctic with Bartlett until 1930.

Reproduction Of Old Shop

Merchandise Of Century Ago Shown In New York

An American company 100 years ago made a pair of silk stockings for Queen Victoria. They are on exhibition in a Fifth Avenue, New York shop, with proceeds going to the Fresh Air Fund. The shop is a reproduction of a store opened in 1837, and is furnished with counters, desks, a safe and a stove, some of which were used in the last century. Merchandise of 100 years ago is displayed.

Because the attractions on exhibition are the embroidered silk wedding hose worn by a bride in 1847, and a pearl and goldfish handbag made of fabric from a priest's robe in the 16th century.

May Live In Palestine

Haili Selassie Is Considering Palace On Mount Of Olives

A palace on the Mount of Olives built by an emperor now in exile may become the permanent home of another fugitive sovereign.

Haile Selassie, who may make his residence in the Kaiserhof palace of Emperor Wilhelm II. for his wife, the Empress Augusta Victoria, after their visit to Jerusalem at the end of the last century, it was reported. At that time Palestine was part of the Turkish Empire.

The Negus recently visited the palace, which is now a monastery.

Unusual Companions

A Canadian hunker goose and a lamb, inseparable companions on a Modoc county farm near Berkeley, California, understood each other. When the hunker wanted the lamb and wants the lamb wants company, it bleats. Each always responds.

Economical Housewives

There was a day when the housewives bought the far-away "bargain" in the belief that it was good business to save a few pennies. But experience taught them a few things. Today's housewives do not buy blindly. They examine the article first and when satisfied with the product they pay a fair price at home. It is economical to make your purchases in

CARBON

SALT BLOCKS COMBAT PHOSPHATE DEFICIENCY

Phosphated salt blocks for use in combating the serious effects of phosphate deficiency among livestock have been recently developed by a Canadian salt firm.

Bone diseases and stiff-neckness are caused by a shortage of phosphate in the feed ration of livestock and it has recently been learned that there are large areas in Canada where the natural crops are phosphate deficient. Western Ontario, southern Alberta, southern Saskatchewan, central Manitoba and the Fraser River Valley are all affected. It is claimed that the new phosphated salt blocks will be equally as effective in preventing and relieving these two diseases in these areas as isolated salt has been in preventing goitre in the great goitre belt, which consists of the Great Lake region in Ontario and the glacier water-fed districts in Alberta and British Columbia.

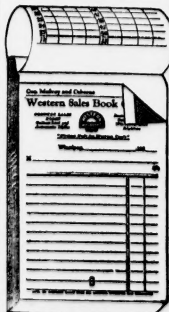

A CALENDAR ROMANCE

Our hero was the common sort, when all is said and done:
He worked his head off daily and was out to get the MON.
The reason for his diligence was commonplace, 'tis true—
He tried to swell his salary so it would suffice for the WEB.
And maybe that's the reason why one day he lost his head,
And falling on his knees, he cried:
"Oh, nation, with thee I wed!"
He may have thought this sudden, but it seemed not so to her;
She slipped a quick acceptance and said forcibly, "Yeth THUE!"
But when they went to keeping house, he feared that he would die;
For, oh, that modern maiden could neither bake nor FRI.
She could not run a bungalow, or even run a flat,
So on many occasions is a restaurant they SAT.
But he forgave her everything—as man has always done—
When she presented him one day a bouncing baby SUN.

HOW BIG IS A MAN

A man's no bigger than the way he treats his fellow man!
This standard has his measure been. Since time itself began,
He's measured not by titles or creeds, His sounding 'tho' they be,
Nor by the mold that's put aside Nor internuity.
He's measured not by social rank, When character's the test.
Nor by his car's pomp or show, Disavowing wealth's necessity.
He's measured by his justice, right, His fairness at his play,
His courtesy in all dealings made, His honest, upright way.
These are the measures ever near to serve him when they can.
For man's no bigger than the way He treats his fellow man!

THE CARBON CHRONICLE

CANADA SHEEP AND BEST OF WOOLLENS

Canada is not regarded particularly as a sheep country as compared with Australia and New Zealand although vast areas in this country are well adapted for such an industry. However, the clip of wool amounts to 20,000,000 pounds and of this amount 5,000,000 pounds are used for home spinning and weaving in the province of Quebec. Perhaps the larger number of Canadian sheep are of the long-wool variety and the wool is more suitable for the manufacture of blankets and heavy coats used by men in lumbering, mining and the rougher work. Finer wools can be produced here as well and far too much of that grade is imported by manufacturers of fancy underwear and fine yarns and felts. Were sheep producers given a wider patronage there is no doubt but that twice or three times the number could be reared on our vast tracts of semi-waste land.

BRIDGE COSTING \$8,000,000 TO SPAN VANCOUVER HARBOR

Vancouver, B. C.—Following the initiative of her California rival, San Francisco, whose stately bridges now span the Golden Gate and the Bay, the Canadian metropolis on the Pacific Coast, Vancouver, is to have its own bridge across the harbor entrance.

Final approval has been given by the Canadian Government for construction of what will be the tallest suspension bridge in the British Empire across the First Narrows to connect the city with the north shore hinterland. The cost, approximately \$8,000,000 is being borne entirely by British financial interests headed by Lord Southborough.

It is expected that the engineers planning the bridge will be in a position to have tenders for construction called some time in September, and the bridge will be ready for use within three years.

The bridge will be 209 feet high and 150 feet long. It will be the longest bridge of its kind in Canada.

Because there was some uncertainty as to whether such a structure would interfere with navigation, the Canadian Government at first declined to approve the project. New plans have been drawn, however, that provide adequate safeguards.

The bridge will effect a radical alteration in the appearance of the

entrance to Vancouver harbor, as the approach to the span from Vancouver and on the north shore the approach will be through the scenic Stanley Park, famous the world over for its natural beauty. The steel span will be strung from Prospect Point, a high promontory overlooking the Lion's

CARBON STAMPEDE JULY 1

Vancouver's Golden Jubilee

Eighty years ago the first transcontinental Canadian Pacific Railway train from Montreal reached the Pacific Coast. This summer Vancouver, now the Gateway to the Orient and port for ships of the entire world, will celebrate the Golden Jubilee of its founding as the western terminal of the Canadian Pacific Railway, commencing July 1 with Dominion and International Good Will Week, the programme concludes with the Canada Pacific Exhibition on September 7, and 13-14: schools' programme in June; Bachelorette courses which will attract thousands; June 11 to 14: golf tournament; King's birthday, and religious dedicatory services. One of the highlights of Vancouver's celebration will be the re-enacting of the arrival of the first Canadian Pacific train

almost half a century ago. The venerable old engine, first to the coast, will be run again, with its original pilot, W. H. Evans, at the throttle. Some of the old-timers who saw the first train arrive will also be present for the ceremony. The Canadian Pacific Railway will run tours at low cost from Eastern Canada to the Pacific Coast for the event, in with stop-over privileges at Banff Springs Hotel, Chateau Lake Louise, and other famous Rocky Mountain resorts. Pictures show the old and the new Vancouver, and Sir William Van Horne, second president of the Canadian Pacific Railway, who chose the name of Vancouver in 1884 for the western terminal of the first transcontinental railway line.

OVER BIG BEND GAPBridging the "Big Bend" gap for
passenger traffic on the Trans-Canada high-
way between Golden and Revelstoke,
the C.P.R. has announced that it will
have special equipment available to
transport cars between June 15th and
September 15. A daily service will be
given both ways.Three automobile baggage cars will
be available for movement each way
each day.Rates for carriage of automobiles
between the points mentioned will be
according to wheelbase, as follows:
wheelbase up to 115 inches, \$12.50;
115 to 125 inches, \$15; over 125 in-
ches, \$17.50.Each automobile must be accompa-
nied on the train by at least one pas-
senger holding regular first-class pas-
sage ticket the single fare being \$3.45.All other occupants of the car
travelling by train are required to
hold valid railway transportation.The company also requires automob-
iles to be delivered at the shipping
point at least 30 minutes before the
departure of the train.As the train journey between Re-
velstoke and Golden will be in day-
light, there will be no delay or unnec-
essary expense to motorists. Cars will
be carried on the same train and
available for immediate delivery on
arrival at Golden or Revelstoke.

Calgary Herald.OPEN LETTER TO PREMIER
WM. ABERHART101 Bank of Commerce Bldg.
Calgary, Alberta,
May 26, 1936Hon. William Aberhart, B.A.,
Premier of Alberta,
Legislative Assembly,
Edmonton, Alberta, Canada.

Honorable Sir:

Since we have now definitely en-
tered into an era of taxation, bi-
tries and less purchasing power, we
wish to remind you that this is no
the programme on which you were
elected.The duties you assumed, by accept-
ing the leadership of the elected re-
presentatives of the people, i.e., the
abolition of poverty, have not been
carried out. As a matter of fact, you
are doing the very opposite.At this time our association, in
common with our Social Credit move-
ments throughout the world, register
our protest against any Government
claiming to be Social Credit, laying
additional burdens upon the people.We wish to emphasize the fact
that it is incumbent upon you, and
your colleagues, as a Social Credit
Government, to immediately lessen
the burden of the people by:

1. Definitely establishing the rights
of the Province to monetize its own
real wealth.
2. The immediate lowering of taxes
3. An immediate reduction in prices.

These proposals were incorporated
in the Interim Report of Major C.H.
Douglas, and further substantiated in
his recent letters.Yours very truly,
ALBERTA PROVINCIAL DOUGLAS
